

Wi-Fi Networking Special 802.11b

Retail Automation brings you the ease of home Wi-Fi networking. Surf the net or collect email from anywhere in the house. We install the Wi-Fi and lock it down so the whole neighborhood doesn't connect to you..!

The deal includes a wireless router (802.11b), one wireless network card so you can connect your laptop, installation and firewall setup. We will show you how you can add users to your network and explain any queries you may have.

Payment Option 1 - Outright Purchase \$240

Payment Option 2 - Rental \$20 per month

Do you need internet..? We have an exceptional deal to get you online... We use satellite internet which is faster and more reliable than cable. We install a small dish and point it towards Mount Eldon. Your Installation and modem is FREE. The only charges you have are the monthly fees of \$40 for the internet connection. That's it.
